

In Love Again © S Desmarais-R Salagan

We went together away back when
the sky was blue and the air was thin
We left each other and I went away
I knew that you'd be mine again someday

I'm in Love again but this time it's for good yes
I'm in Love again and the time was oh so good
To be in love, to be in Love
yes to be in Love with you

You know I staid free and hopped to be
with you and you alone with me
But when I saw your little friend
I left that thought alone and then

I'm in Love again but this time it's for good yes
I'm in Love again and the time was oh so good
To be in Love to be in Love yes to be in Love with you

You left her and you walked with me
you spent your time and you cared for me
I knew right there that I did too
cared so very much for you

I'm in Love again but this time it's for good yes
I'm in Love again and the time was oh so good
To be in Love to be in Love yes to be in Love with you, yes to be in Love with you oh yeah just
to be in Love with you do do do do do do do.....
